Dear Mr. Schofield:

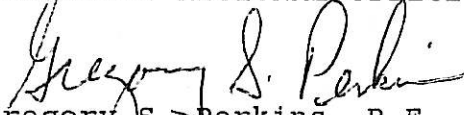

This is to confirm an inspection on May 31, 1990 of the McDonald's Restaurant East Battlefield spill site in which the tack coat was washed into the storm retention basin.

It appeared the contaminated material had been removed and cleanup of the site was complete. This does not release you from complete restoration of the site to pre-spill conditions.

Should you have any questions, please advise.

Sincerely,

SOUTHWEST REGIONAL OFFICE

CARLSON CONSTR.

Dear Mr. Short, In answer to your letter of Oct-3rd regarding water roof run off at my car wash 425 W. Battlefield. I find very little if any of the problem you describe. Now ever I am installing a deflector type drain rail that will deflect roof run off out at least another foot. I hope this will comply. I think it will keep any roof run off water away from the sewer drains.

Thank You
Bobby Brown
